Sun Protection Policy 2023-24

At St Peter's Primary Academy, we acknowledge the importance of sun protection and want staff and pupils to enjoy the sun safely.

Sun exposure in the first 15 years of life can contribute significantly to the lifetime risk of skin cancer. Schools are in an important position to help protect children's skin because:

- children are at school 5 out of 7 days a week at times when UV rays are high
- most damage due to sun exposure occurs during the school years
- schools can play a significant role in changing behaviours through role modelling and education
- children and teachers are at risk of sunburn within 10-15 minutes of being exposed to strong sunlight
- children spend an average of 1.5 hours outside per school day – more, if involved in sports and outdoor activities
- the development of skin cancer in later years is largely preventable through behaviour modification and sun protection during early years

Implementation

We will achieve this by implementing these measures -

Curriculum

- We will talk about how to be SunSmart in assemblies at the start of the summer term.
- Sun safety to be included in the PSHE curriculum.
- Develop resources concerning sun protection in the library

Protection

- Shade - children will be encouraged to sit in the shade in the playground and field.
- Sun shades (natural and man-made) will be available for children to sit under.

- The availability of shade is considered when planning excursions and all outdoor activities

Clothing

- Children should bring sun hats/caps to school to wear at playtimes, during outdoor PE lessons and on any educational visits to protect them from the sun.
- Children may bring sunglasses to school to be worn outdoors on bright days
- Children should wear T-shirts which cover their shoulders for PE lessons or long sleeves for playtime.
- Sports tops should not include vest tops
- All teachers, teaching assistants and lunch-time supervisors will be encouraged to wear hats when on playground duty and during sports lessons, when they need them.

Sun Screen

- Sun screen use will be encouraged on educational visits and for outdoor PE lessons.
- If required at school children can bring their own sun screen and apply it themselves.
- Children may only use their own sun screen.
- Teachers, TA, lunchtime supervisors and other school staff will not apply sun screen to any children.
- Parents are asked to teach their children how to sensibly use and apply these screens and will clearly label them and put them in their child's bag for their own use.

Role modelling

Encourage staff to act as role models by:

- Wearing protective hats, clothing and sunglasses when outside and apply SPF 30+ sunscreen.
- Seek shade whenever possible.

Collaboration

The academy will aim to work with parents, Local Academy Committee members and the wider community to reinforce awareness about sun safety and promote a healthy school.

This policy has been developed using the Cancer Research UK SunSmart Guidelines for Primary Schools.

Review

The Local Academy Committee and staff will monitor and review the policy every two years.
